

Product Information & Pricing for Rolling Door Hardware & Options

Rolling door hardware and options for the BarnCraft Door Series are included in our BarnCraft Premium Rolling Barn Doors color product catalog, and BarnCraft Rolling Doors Price List, and have the following specifications*:

Rolling Door Hardware:

- 1) We offer 5 Rolling Door hardware kits.
- 2) Each kit includes all necessary hardware for one single rolling door installation. Not included is wood door header and header fasteners.
- 3) Each kit is packed in at least 2 boxes
- 4) Metal door handles may be "touched up" with any exterior grade metal paint, such as Rustoleum™ if needed.
- 5) **NOTE that the GAGE rollers are required to be recessed into the top edge of the door in order for the Anti-Jump disks to function as designed for a safe installation.**
- 6) Kits include the rolling door rail.
- 7) All rolling door hardware is black in color. Hardware may be painted by the end user if desired.
- 8) ***Installation Note: for correct installation, the distance from the bottom of the roller wheel to the top edge of the door must be 1-7/8"***

Gage

Slade

Philmont

Waggoner

Royal

Steel Rails are heavy-duty 1/4" (nominal) inch thick steel rails. Available in 3 lengths depending upon the door width: 79-3/4", 90" and 100". See page 2 for more information on these rail lengths.

Product Specifications for BarnCraft™ Door Rollers

Nominal dimensions for our 5 Rolling door rollers are shown here. These are hand-made products, and the dimensions may vary slightly.

All roller wheels are produced using a high durometer nylon and are considered "quiet-glide".

All roller fixtures are powder coated steel...1/4 inch nominal thickness...black in color.

Installation Note:

for correct installation of all 5 Roller Designs, the distance from the bottom of the roller wheel to the top edge of the door must be 1-7/8"

GAGE door rollers

Note: Gage rollers are designed to be recessed into the top edge of the door.

Recess Mounted

ROYAL door rollers

WAGGONER door rollers

Product Specifications for BarnCraft™ Pull Handles and Door Lock

Rolling Door Pull Handles

- 1) Pull handles for BarnCraft rolling doors are real hand-wrought iron. Slight appearance/size variance can be expected in each.
- 2) Pull Handles are packaged separately and uninstalled on all GlassCraft door products so the doors may be properly finished before the straps are installed. Metal door straps are individually bagged and boxed with screw fasteners included.
- 3) Handles may be ordered individually, without other products.
- 4) Metal door handles may be "touched up" with any exterior grade metal paint, such as Rustoleum™ if needed.

Item Number	Item Description	List Price
HP1	Santa Fe Pull Handle (not installed on door)	\$65
HP2	Monterrey Pull Handle (not installed on door)	\$60
HP3	Corona Pull Handle (not installed on door)	\$40
HP4	Vista Pocket Handle (not installed on door)	\$30
BDPL1	Barn Door Privacy Lock (not installed on door)	\$60

Corona Wrought Iron Pull Handle

Santa Fe Wrought Iron Pull Handle

Monterrey Wrought Iron Pull Handle

Vista Wrought Iron Pull Handle

A 1/2" deep pocket must be routed/carved into the door to use the Vista Pull, as the face plate mounts on the door surface

Rolling Door Lock Kit

These small lock kits are designed to be mounted on the edge of the opening over which the rolling door slides.

- 1) The lock mounting plate screws onto the opening with 3 screws...2 round head screws on the top and bottom, and a flat head screw (not visible in the photos) in the middle.
- 2) The moving lock plate mounts using the 2 round head screws and 2 washers.
- 3) The rolling door lock plate mounts on the edge of back face surface of the rolling door. Note that a 1/8" x 1-1/2" slot that is 1/4" deep must be cut into the door. This rolling door lock plate mounts over the slot.
- 4) The lock is set by rotating the moving lock plate into the slot on the rolling door lock plate.
